**PERKHIDMATAN GUAMAN BAGI PELAKSANAAN PROGRAM SME INVESTMENT
PARTNER (SIP)**

1. Project Information

The SIP programme is one of the High Impact Programmes under the SME Masterplan (2012-2020) with the aim to enhance access to financing for SMEs, particularly those at the early stage through provision of risk capital financing. The Programme entails a co-funding initiative between the public and private sectors, whereby investment entities (to be referred as “SME Partner”) will be established to raise funds from private investors and will be matched by funds from the Government through SME Corp. Malaysia. Once sufficient capital is raised, the SME Partner will channel the funds to viable SMEs in the form of loan or a hybrid of loan and equity.

SME Corp. Malaysia will initiate the programme by identifying and appointing a suitable SME Partner to implement the Programme which provides SMEs with a few unique offerings which currently do not exist such as:

- i. Provide early stage financing to SMEs as opposed to venture capital or bank financing which are more inclined towards established firms which are at the growth and expansion stages;
- ii. Offers the choice of both equity and loan financing to meet SMEs’ financing needs;
- iii. Covers SMEs in all sectors including mainstreet firms with innovative, in emerging areas and have high growth potential. The funding is more broad based compared to the current venture capital financing that is largely for technology-based companies; and
- iv. Crowd in private investment into viable SMEs through public-private partnership (co-funding), with an exit in Government funds over time.

2. Objective

The objective is to define the job scope of legal services that the appointed legal firm shall provide to SME Corp. Malaysia which will serve as the first mover in the SIP programme.
